

YEAR 4 HOME LEARNING

WB 18th May 2020

 <p>READING</p>	 <p>MATHS</p>
<p>This week we have chosen some non-fiction comprehensions about British wildlife. We thought these would be interesting as we have been enjoying seeing the videos and pictures of the wildlife in your gardens.</p> <p>The comprehensions are: All about Garden Birds and All about British Mammals.</p> <p>Remember to ask for help, or use dictionaries to find the meanings of unknown words.</p> <p>There are 3 differentiated question sheets so please choose the one that you feel is most appropriate.</p> <p>The answers are included on a separate document so you can check to see how you got on.</p> <p>Please remember to keep reading at home every day. You should be reading independently, but also, if you can, read and share a book with an adult that's good too.</p> <p>We've finished 'The Nothing to See Here Hotel' by Steve Butler which Harry R recommended. It was really funny and would definitely recommend it too. We are going to read his next one 'You ain't seen nothing Yeti'. Miss Sothern</p>	<p> This week, WHITE ROSE MATHS focuses on Multiplication, division, perimeter and area.</p> <p>This is new learning.</p> <p>Day 1- What is a fraction https://vimeo.com/418154269 this is the video link for this lesson.</p> <p>Day 2- Equivalent fractions 1 Day 3- Equivalent fractions 2 Day 4- Fractions greater than 1 Day 5- Challenge</p> <p>Please complete the worksheets for each day either on the worksheets or writing the answers into your home learning book. The worksheets can be downloaded from the home learning area of the VLE.</p> <p>If you would like extra maths:</p> <p> You can develop your Measures knowledge by following the link to the Oak National Academy https://www.thenational.academy/online-classroom/year-4/maths#subjects and try the next 5 lessons on time, money, length and mixed measure problems.</p> <p>Maths - There are also '10 minute maths' sheets that include a variety of objectives for you to practice and recap on.</p>

Question

Habitat

Vegetation

Species

Unique

Spend some time practising these words.

English:

You will find everything you need in the English Project area. Find the weekly overview powerpoint and it will give you full instructions. This week you will be looking at a non-fiction text and you will need to do some research. You might be able to combine the English work with your topic and computing and reduce the number of pieces of work overall.

You will also be able to find chapter 2 of our class reader *Journey to the River Sea* as an audio file

Computing

We hope you have all received the parent email about the new Scratch accounts we have set up for the children to share their programming with us. It is very important that you read the rules with them, and check that they are following them before they share their work with me.

Instructions about the task and how to share are on eschools in the Other Subjects project. The children have received their username and passwords as a private message in eschools.

Rainforest topic - thanks for the work we have seen so far. The topic plan will continue for one more week. We look forward to seeing more of your lovely work.

Art

If you want a new project, why not try following these instructions to create an optical illusion artwork.

<https://www.thenationalacademy/year-6/foundation/optical-illusions-and-using-shading-to-show-form-year-6-wk3-5#slide-2>

We would love to see any rainforest art that the children have produced. It can be uploaded to the project area as a photograph and we can comment on it there.

Grammar work:

Possessive Apostrophe

After looking at Monday's session on the English PowerPoint, your grammar activity this week is to show possession of singular and plural nouns.

There is a worksheet called 'Possessive Apostrophe'

There are also rule sheets and resources to help if needed.

Remember the most important thing right now is to stay safe and healthy.

Please look after your family and make sure that you are being kind and trying your best all the time.
