

Google Classroom Top Tips!

During our transition over to Google Classroom, we have encountered a few technical problems which was to be expected. We can't thank you enough for all of your patience and help sorting these from your end too. We are all learning during this process and we are very grateful to those of you who have offered your support. Here are a few tips we have collated from our parents and children throughout the week...

Maths worksheets

When it asks you what you want to 'open with' you click **DocHub** and that lets you edit it and saves it to the google drive so you can upload it

- Charlie Y4

Make sure you are signed out of your personal Gmail account and logged in as your child using their Gayton email to join a class.

Google slides

The links are working better for us in Microsoft Edge. The Google Slides document won't open for us in Chrome, but opens up in Edge and can be downloaded (as pdf) and printed.

- Mr Simms (Sophia) Y4

English / Topic

You can submit a video showing your work. First you use the normal camera to take a video or picture. Next, go on to google classrooms and then click the task you have completed from the home page. Then there should be something that says add or create. Click on that then go on to file and select from file. Next select the pic or video you want. Wait for it to load. Make sure you click turn in. Now it has been sent.

- Nancy Y5

PDF Files

You can write over a pdf file for a Reading Comprehension using **DocHub** too. Once you have completed your work, you must click turn in and mark it as done.
