YEAR 6 HOME LEARNING

WB IIth May 2020

READING	MATHS
This week there are 2 different reading comprehensions- <i>Banksy</i> and <i>How the leaves came</i> <i>down</i> . For <i>Banksy</i> , there are two sets of questions to complete- standard questions and vocabulary focused questions. Answers are included.	This week, WHITE ROSE MATHS focuses on fractions. This is consolidation of prior learning in preparation for Year 7. Day 1- Multiply fractions by integers Day 2- Multiply fractions by fractions Day 3- Divide fractions by integers Day 4- Finding fractions of amounts Day 5- Challenge!
Please make sure that you are still reading regularly at home. Use this time to explore some new books or to re-visit some old favourites. Why not go outside and read on a blanket in the sunshine?	Please complete the worksheets for each day either on the worksheets or writing the answers into your home learning book. The worksheets can be downloaded from the home learning area of E-Schools. If you would like an extra challenge: You can further develop your fraction knowledge. Follow the link to the Oak National Academy <u>https://www.thenational.academy/online- classroom/year-6/maths#subjects</u> and try some fraction lessons. Also, for some fur games and challenges, I have uploaded a home-learning document and if you are missing a bit of arithmetic, there is also Anita's Arithmetic SATs paper which you can mark and correct for her!

Revision of statutory 5/6 spellings and some science vocabulary:

- twelve
- twelfth
- variety
- various
- vegetable
- vehicle
- yacht
- circulatory
- system
- plasma

Spend some time practising these words, checking the definitions and using them in sentences.

TOPIC OR SCIENCE WORK

This half term in Y6 we would completed our science topic on Animals including Humans (the circulatory system). Please see the project that I have put together for you.

This will include some computing, science & art work.

Can you make a poster or double-page spread to show everything you have learnt about the circulatory system and share it with everyone on our learning platform?

PSHE

Please see the attached health and well- being ideas from some of our school staff. How many of them can you complete?

Think about which of these you might be able to use if you are feeling a little bit down or a bit upset at times.

Please go to E-Schools and open up the English powerpoint for this week. Here you will be guided through your English activities for the week. There will be a mixture of grammar and writing activities all linked to the new text that you would have been studying in school.

I'm enjoying learning about Jacques Coustau with you. $\ensuremath{\textcircled{}}$

SATs Week 2020

How could we forget?! It should have been SATs this week! It's a shame that you have had to miss out on all that fun so I have included a few 'Lockdown SATs' papers to keep you occupied! Enjoy! ©

Remember the most important thing right now is to stay safe and healthy.

Please look after your family and make sure that you are being kind and trying your best all the time. If you have younger siblings it would be lovely if you could help them with their learning, listen to them read or play a game with them.
