

Hello F2. This half term we would have been studying pets. Here are some ideas to try at home if you wish. If you can please add anything you've done to Tapestry, I'd love to see it.

### Communication and Language

#### Listening and Attention

What animals can you hear around you?

What other sounds can you hear?

### Mathematical Development

#### Numbers

- Sort your toy animals into sets. How have you sorted them?
- Make up a number story about the pets. Using addition and subtraction.

#### Space, shapes and measures

- Cut out some different shapes. Now put them together to make a pet.

### Literacy Development

#### Reading

- Follow the story of 'Oh no, George!'  
<https://www.booktrust.org.uk/books-and-reading/have-some-fun/storybooks-and-games/oh-no-george/>

#### Writing

- Draw a picture of your favourite pet and label it.
- Draw a picture of a pet you would like to have. It could be one that you have already. Write a sentence about it. What it looks like and what it can do.

### Expressive Arts

#### Media and materials

- Make a pet from junk modelling.

#### Being Expressive

Using your toys, make up an adventure story to tell to tell to your family

### Physical Development

- Think of a pet and see if you can move like it. Can anyone guess what you are?

### Understanding the world

#### People and communities

- Find out whether any of your family had pets when they were children. If they did, find out something about the pets.

#### The World

- Draw or find pictures of two different pets. What is the same about them and what is different?

#### Technology

- If you have a pet take some pictures of it.
- If you don't have a pet, try to find some pictures of a pet that you like the look of.
