

# YEAR 3 HOME LEARNING

WB 11<sup>th</sup> May 2020

 READING	 MATHS
<p>We would have been looking at our new fiction book 'Journey' had we still been in school.</p> <p>I have therefore uploaded a PowerPoint onto E-Schools which includes both your Reading and Writing tasks for the week. You may need to discuss your ideas with an adult, as 'Journey' is a picture book and would have required lots of discussion to develop some ambitious vocabulary together, as well as unpicking the comprehension aspect of the story.</p> <p>This week's individual comprehensions vary, ranging from facts about the human body to information around VE day!</p> <ul style="list-style-type: none"> <li>• Amazing facts about the Human Body</li> <li>• Gary's Big adventure</li> <li>• How do weeds get everywhere?</li> <li>• Ramadan Comprehension</li> <li>• VE Day Comprehension</li> </ul> <p>The answers are included on a separate document so you can check to see how you got on. You don't have to do them all - you can either pick your favourite or complete on a day for a little more structure.</p>	<div data-bbox="813 470 901 548">  </div> <p>This week, WHITE ROSE MATHS focuses on Money, Multiplication and Division. This is new learning, whilst also consolidating concepts covered in Spring Term.</p> <p>Lesson 1 - The 4x table            Lesson 2 - Multiply 2 digit by 1 digit            Lesson 3 - Divide 2 digit by 1 digit            Lesson 4 - Scaling            Lesson 5 - Maths challenge found on the WRH website</p> <p>Please complete the worksheets for each day either on the worksheets or writing the answers into your home learning book. The worksheets can be downloaded from the home learning area of the VLE.</p> <p>If you would like an extra challenge:</p> <div data-bbox="813 1288 973 1388">  </div> <p>You can continue to consolidate your fraction knowledge by following the <a href="https://www.thenational.academy/online-classroom/year-3/maths#subjects">https://www.thenational.academy/online-classroom/year-3/maths#subjects</a> and try Lessons 6 - 10.</p> <ul style="list-style-type: none"> <li>• Identifying and describing non-unit fractions (Lesson 6)</li> <li>• Finding non-unit fractions of quantities (Lesson 7)</li> <li>• Consolidating finding non-unit fractions of quantities (Lesson 8)</li> <li>• Comparing fractions with the same denominator (Lesson 9)</li> <li>• Compare and order unit fractions (Lesson 10)</li> </ul>

## SPELLING

These words would have been part of our key vocabulary during our study of the book 'Journey' by Aaron Becker.

mention

minute

naughty

position

possess

probably

occasionally

quarter

Spend some time practising these words, unless you are on the Orrets Meadow programme.

## WRITING

Please go into the homework section of the VLE and open up the powerpoint. Here you will be guided through your English activities for the week.

There will be 5 sessions (Monday - Friday) in the style of the PowerPoints we used to use as part of our English lessons in school!

All you need to do is complete the mixture of grammar and writing activities each day. They are all linked to the text that we would have been studying called 'Journey' by Aaron Becker.

## Topic or Science Work

This term in Y3 we would have been studying plants in Science and moving on to explore one of the earliest civilisations: Ancient Egypt. Please see the project that I have put together for you which lists different activities.

Can you make a poster to show everything you have learnt about plants and upload it to the VLE for everyone to see?

## Additional Grammar work:

This week's grammar activity is based on using the articles 'a' or 'an'

***an apple***

***an honest mistake***

***a table***

***a plant***

Have a look at the PowerPoint and then try the worksheet. The answers are at the end so you can check. ☺

## PSHE

Please see the attached health and well-being ideas from some of our school staff. How many of them can you complete?

Think about which of these you might be able to use if you are feeling a little bit down or a bit upset at times.

Remember the most important thing right now is to stay safe and healthy.

Please look after your family and make sure that you are being kind and trying your best all the time.
